◦ Volunteering ◦

Dosti Peshawar

Volunteer

Dec 2024 - May 2025

Summary

I am an undergraduate student in Artificial Intelligence and am building my career as a Data Analyst. I enjoy working with data, creating dashboards, and finding insights that help solve real problems. Skilled in Python, SQL, Excel, and Power BI, I have hands-on experience in data analysis and visualization. My goal is to grow as a Data Analyst and apply my skills to meaningful projects.

Experience

Elevvo Pathways

Data Analyst Intern

Cairo, Egypt (Remote)

Aug 2025 - Sep 2025

Built and designed interactive dashboards using Power BI. Created DAX measures for KPIs such as Revenue, Average Order Value, and Delivery Rate. Analyzed sales and operations data to generate insights for business decisions. Improved reporting efficiency by automating recurring reports.

The Order Of Pen

Human Resources Volunteer

Peshawar (On-site)

Aug 2025 - Aug 2025

Assisted in onboarding and coordinating volunteers for events

Maintained attendance and supported team communication

Helped resolve volunteer queries and ensured smooth collaboration

Collected feedback to improve future activities

Digital Empowerment Network, Pakistan

WordPress Mentor & Intern

Pakistan

July 2024 - Nov 2024

Served as both a WordPress mentor and development intern. Conducted training sessions for 2-3 batches of students, teaching them how to create and manage websites using WordPress. Covered plugin configurations, on-page SEO techniques, and performance optimization best practices.

Education

Islamia College University Peshawar

Artificial Intelligence

Undergraduation

Nov 2023 - June 2027

Projects

E-Commerce Sales Performance Dashboard

Tools: Power BI, Excel, DAX

- Designed an interactive dashboard to track sales, profit, and order trends.
- Built KPIs such as Total Revenue, Average Order Value, and On-Time Delivery Rate.
- Enabled management to monitor performance across regions, categories, and customer segments.

Customer Insights & Retention Analysis

Power BI, Python (Pandas, Matplotlib)

- Conducted RFM analysis to segment customers by Recency, Frequency, and Monetary value.
- Identified top 10 categories and high-value customers to support targeted marketing.
- Visualized purchase behavior, churn risks, and loyalty patterns.

Revenue Forecasting & Trend Analysis

Power BI, DAX, Excel

- Built a time-series model to forecast monthly revenue based on historical data.
- Visualized sales seasonality and year-over-year growth trends.
- Supported decision-making for sales planning and resource allocation.
