OBJECTIVE

Final year undergraduate student in Artificial Intelligence, with a strong interest in AI powered software and data systems. I have built and delivered an internal ERP system, an AI chatbot, and worked as a freelance web developer, with practical skills in web development, data analysis, and AI application development. I am looking forward to securing a role where I can gain hands on experience, apply my skills, and continue growing professionally in the field of Artificial Intelligence.

SKILLS

- Web Development: WordPress, WooCommerce, Elementor, PHP, MySQL, HTML5, CSS3, JavaScript
- Modern Stack: React, TypeScript, Vite, Node.js, Supabase, REST APIs
- Data & AI: Python, SQL, Power BI, data cleaning and analysis, prompt engineering, AI-assisted ("vibe") coding
- Tools & Deployment: Git, GitHub, Vercel, Railway, Linux, cPanel, SSL
